unable to get list of boats using "foobar" application

Hello Sue,

I logged into the server this morning and wasn't able to get a list of boats.
Could you let me know if I'm using the relevant commands?

```
ssh rowboats
cd /opt/boatapp
cat boatlist.csv
cat: boatlist.csv: No such file or directory
```

I'm not clear whether `cat` is the right command, or if there's some other explanation.

Kindly,

Bob Smith
